Padlet is like having your own virtual corkboard (virtual wall).

Place items all over the corkboard (wall) and share it with students or create a blank Padlet with a starter topic or question for students to add to.

A free Padlet account allows you to create as many Padlet "walls" as you would like.

Once you have created a wall, students can post virtual sticky notes all over the wall. The sticky notes can contain text, a link, a document, an image, audio, or a video.

Padlet walls can be shared through email, posting a url link, embedding, and QR codes. Privacy can be set many different ways.
